

Outlook/Lotus Notes client

The Outlook/Lotus Notes plug-in allows the client to send SMS directly from the MS Outlook or Lotus Notes mail client.

This system is a 2-Way system and allows the receiving party to SMS a reply back to the sender. The replied message is sent to the sender's email. This is very effective for corporate secretaries/ administrative assistants scheduling meetings, appointments for their executives, doctors etc.

The service also offer a web interface for managing cost centers, reporting, logging and tracking of messages.

Pricing is based on monthly subscription service.
