

Service Agreement

(Updated: August 2024)

This Red Oxygen Service Agreement (“**Agreement**”) is between RedOxygen, Inc., a U.S.A company (“**Red Oxygen**”, “**we**”, “**us**” or “**our**”) and you or the entity that you represent (“**Customer**” or “**you**” or “**your**”) and governs your use of Red Oxygen’s short message service, whether through its desktop or browser-based applications, including add-ins, APIs, or any other media now existing or created in the future (the “**Service**”).

IMPORTANT: BY ACCESSING OR USING THE SERVICE, YOU ACKNOWLEDGE THAT YOU HAVE READ, UNDERSTOOD, AND AGREE TO BE BOUND BY THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF YOU ARE ENTERING INTO THIS AGREEMENT ON BEHALF OF A COMPANY OR OTHER LEGAL ENTITY, YOU REPRESENT THAT YOU HAVE THE LEGAL AUTHORITY TO BIND THAT COMPANY OR LEGAL ENTITY TO THIS AGREEMENT, IN WHICH CASE “YOU” SHALL MEAN SUCH ENTITY. IF YOU DO NOT HAVE SUCH AUTHORITY, OR IF YOU DO NOT AGREE WITH THE TERMS AND CONDITIONS OF THIS AGREEMENT, YOU SHOULD NOT ACCESS OR USE THE SERVICE.

This Agreement incorporates by reference the following documents: (1) the Account Details (“**Account Details**” or “**Account Details Addendum**”), if we have emailed Account Details to you and (2) the Red Oxygen Privacy Policy located at <https://redoxygen.com/privacy-policy> (“**Privacy Policy**”), as these policies and terms may be modified by Red Oxygen from time to time ((1) and (2) together, the “**Additional Policies**”).

This Agreement applies to, and you agree to be bound by the terms and conditions of this Agreement with respect to, your use of the Service whether you have registered for a trial account or upgraded account, unless an authorized representative of Red Oxygen has accepted a separate written agreement with you, but solely with respect to its subject matter. If you use the Service with a trial account, you agree that Section 4 below controls in the event of any conflict or inconsistency with any other provision of this Agreement. When you complete and submit the online Trial Account Upgrade Application, we will notify you in writing of your application’s acceptance or rejection together with the Account Details Addendum. Red Oxygen’s acceptance of your application, however, will not obligate Red Oxygen to upgrade your account or provide the upgraded Service to you if you reject the Account Details Addendum or refuse to check the “I agree to the Service Agreement” box during the trial sign-up process.

For any terms with the first letter capitalized please see the definitions preceding bracketed words in bold and listed at the end of this Agreement.

1. **The Short Message Service (SMS)**

- a. We will provide you with the Service which enables software/application users to:

- i. send SMS from their computer using various Red Oxygen software applications, application plug-ins, API and web services to mobile devices equipped with cellular service; and
 - ii. receive replies to these SMS sent from mobile devices to the user's registered email address or the Service inbox belonging to the user.
- b. We grant you a non-exclusive, worldwide, and non-transferable license for the Term (as defined in Section 11(a) of this Agreement) to install, perform, display on your computer and use our software to access and use the Service ('Software') and any content contained in, accessed by, or transmitted through the Software, solely for your own internal business purposes in accordance with this Agreement. When applicable, the foregoing license is granted in connection with the Software made available by Red Oxygen on Microsoft AppSource, Google Workspace, or other software marketplaces.
- c. Your employees or contractors will become an authorized user when they have installed our Software on a computer associated with or log into the Web Service using your Internet Domain Name (each, an "Authorized User") and their e-mail address is registered on the Red Oxygen database system.
- d. You may request the de-registration of any of your Authorized Users at any time.
- e. We may provide you free of charge with upgrades to the Software from time to time.
- f. You are liable for all fees incurred as a result of use of your Service by any of your Authorized Users whether approved by you or not.
- g. We will use reasonable endeavors to provide you with access to Service on a continuous basis. However, you acknowledge that:
 - i. the Service is not error or fault free and that you may experience interruptions and usage difficulties from time to time;
 - ii. we are not responsible for the successful carriage and delivery of Service messages, including over third party telecommunications networks;
 - iii. we may immediately and without notice to you suspend access to the Service:
- h. during any technical failure, modification or maintenance involving the Service;
- i. if you breach this Agreement and have not remedied the breach within 15 days of us notifying you of the breach and requesting that it be remedied; or
- j. if you do or allow to be done anything, which, in our reasonable opinion may have the effect of jeopardizing the operation of our or any third party's business, facilities or the services we supply to our customers.
 - i. Except for the license rights granted in this Agreement, (a) Red Oxygen retains all rights in the Offerings; and (b) each party retains all rights it would have independent of this Agreement, including rights under the U.S. Copyright Act and other intellectual property laws or analogous laws in other jurisdictions. No rights will be granted or implied by waiver or estoppel. Rights to access or use Offerings on a device do not give you any right to implement Red Oxygen's patents or other intellectual property in the device itself or in any other software or devices.

2. **Limitations on Use**

You represent, warrant and covenant:

- a. not to take any action that may, in our reasonable opinion, adversely affect or impair any of our rights, title and interests in and to the Software, and/or any of our Intellectual Property Rights in any manner or form;
- b. to restrict access to the Service to Authorized Users;
- c. to use the Service for the sending of short text messages which:
 - i. comply with all applicable laws and regulations and the requirements of any government or statutory body;
 - ii. contains nothing which is likely in the light of generally prevailing standards of decency and propriety to cause offence;
 - iii. comply with all reasonable industry and Red Oxygen policies, standards and codes; and
 - iv. may not in any way be considered as spam or bulk unsolicited commercial messages, and undertake not to allow any Authorized User or third party to do so. As the legislation regarding spam and commercial electronic communications varies widely for different countries and legal jurisdictions the user submitting messages for delivery is responsible for ensuring that their messages are in compliance with all applicable regulations, both in their home location as well as in the delivery destination.
- d. not to repackage, market, license, distribute, transfer, lend, rent or otherwise commercially exploit the Software or translate or export the Software into any other computer language;
- e. to notify us immediately if you become aware of any unauthorized use by any person of the whole or any part of the Service;
- f. not to merge all or any part of the Software with other computer programs, products or services without our prior written consent;
- g. not to reverse engineer, reverse assemble or reverse compile or directly or indirectly allow a third party to reverse engineer, reverse assemble or reverse compile the Software or otherwise attempt to discover any portion of the source code or trade secrets related to the Software, except as and only to the extent that you are legally authorized to do so under any applicable laws. In the event applicable law grants you the right to reverse engineer any portion of the Software notwithstanding this limitation, you shall provide Red Oxygen with written notice prior to such reverse engineering activity, information regarding your intended method of reverse engineering, its purpose and the legal authority for such activity and shall afford Red Oxygen a reasonable period of time before initiating such activity in order to evaluate the activity and/or challenge the reverse engineering activity with the appropriate legal authorities. You shall refrain from such reverse engineering activity until such time as any legal challenge is resolved in your favor. In addition to any other rights and remedies that Red Oxygen may have under the circumstances, you shall be required in all cases to pay royalties to Red Oxygen with respect to any products or services that are developed, marketed or distributed by you, and derived in whole or in part from the reverse engineering of the Software;
- h. not to introduce into our system or the Service viruses, worms, trojan horses or other harmful or malicious software;

- i. to indemnify us for any loss, cost or damage we incur as a result of your failure to comply with your obligations under this Agreement; and
 - j. to ensure that all customers and users of the Service are 18 years of age or older.
3. **Connection Equipment and Costs**
 - a. You will provide at your cost the telephone line, internet service, modem, computer, hardware, software and all other equipment required to use the Service other than the Software.
 - b. You will pay all costs, fees, charges or other expenses which are or may be incurred by your use of any services of a communications service provider (including timed telephone calls) which allow you to use the Service. You agree to indemnify and keep us indemnified in respect of any such costs, fees, charges or other expenses.

4. **Trial Account**

If you have registered for a trial account, the terms and conditions in this Section supersede any conflicting provision in this Agreement:-

- a. No fees are payable by you to us. We will not issue you an Account Details Addendum for your trial account.
 - b. You may use the Service as permitted by this Agreement but only for 15 days with limited whitelisted numbers (or longer period and/or more whitelisted number as approved in writing by Red Oxygen) following registration of your trial account (the “**Trial Period**”). At the end of the Trial Period, unless Red Oxygen has accepted your online Trial Account Upgrade Application by sending you the Account Details Addendum, you may no longer use the Service and this Agreement will automatically terminate (that is, without any requirement on our part to provide you with any notice of termination).
 - c. In addition to the restrictions set forth in this Agreement, you shall not, nor shall you permit any third party to, attempt to circumvent, dismantle or otherwise interfere with any time-control disabling functionality in our Software, technology or systems that causes the Service to cease functioning upon the expiration of the Trial Period.
 - d. Your trial account, the Software and the Service during the Trial Period are provided to you on an “as is” and “as available basis”. We expressly exclude all warranties, conditions and terms implied by statute, general law, international convention or custom with regard to your trial account, the Software and the Service provided during the Trial Period, including without limitation any and all implied warranties with respect to merchantability, fitness for a particular purpose, title and non-infringement, except for any implied condition or warranty, the exclusion of which would contravene any statute or cause this section to be void.
 - e. Except to the extent this Section 4 modifies this Agreement, with respect to your trial account, the Software and the Service provided or made available to you during the Trial Period, all other provisions of this Agreement stand and remain unaltered. Nothing in this Section 4 shall apply with respect to any upgraded account obtained by you.

5. **Fees and Payment**

- a. You will pay to us the Set-up fees, Monthly Access fees, Monthly per User fees, Number fees, Message fees, and other applicable fees as specified in the Plan Details section of the Account Details Addendum.
- b. For the avoidance of doubt, if Monthly per User fees are included in your Account Details Addendum, the calculations are determined by counting each unique Authorized user registered on the Red Oxygen database system at any time during the applicable monthly billing period.
- c. You may elect to make payment by credit card during the signup process, upon election you agree to the surcharge for using a credit card.
- d. If you do not elect to make payment by credit card, you will pay all amounts due to us within 30 days from invoice.
- e. Charges are subject to change at any time at the discretion of Red Oxygen.
- f. To the extent permitted by law any prepayment of Charges is not refundable.
- g. If you elect to pay via credit card and your credit card expires or we are for any other reason unable to debit Charges to your credit card, we may immediately and without notice suspend your use of the Service. In such circumstances we will only again permit access to the Service when the problem with the direct debit has been rectified and you pay to us, whether by way of direct debit or otherwise, an administration fee of \$100 in addition to the due payment for the modules and any interest due for late payment.
- h. We may charge you interest on any overdue amount, calculated daily from the due date until date of payment, at the lower of the annual rate of 1.5% above the prevailing base lending rate of our principal banker and the maximum rate allowable at law. You must pay such interest when you remit the overdue principal amount to us. Nothing in this Section affects our right to terminate this Agreement.
 - i. Our billing system uses an “SMS credit” methodology as the basis for all message charge calculations. A customer message submitted for delivery through our system will require a specific number of SMS credits to process successfully. Our SMS credit system includes the following specifications.
 - ii. The delivery of one standard SMS message to a destination mobile device number in the user’s local country will normally require one SMS credit. (You can confirm this by referring to the Plan Details section of your Account Details Addendum for domestic SMS messages sent.)
 - iii. A standard SMS message containing only 7-bit English or some other European language Latin characters (as defined by the GSM character set) can contain 160 characters and will be counted as one SMS credit if sent locally, while any messages that include characters outside of the GSM character set will be sent as Unicode messages (this includes Chinese, Arabic, Hebrew, Cyrillic and other non-Latin languages as well as some special typographic, symbol or emoji characters). A standard Unicode SMS message can only contain 70 Unicode characters and will be counted as one SMS credit if sent locally. ***Users need to be aware that if you are preparing your English or other Latin character SMS messages in certain editing programs (such as Microsoft Office) some punctuation***

characters can be automatically converted from their standard ASCII values into special typographic equivalents that are effectively Unicode characters (including quotation marks, apostrophes and hyphens). If you then copy and paste these converted characters into your SMS messages, this can result in your messages being detected and charged as Unicode messages, thereby reducing the number of characters you are allowed per SMS credit.

- iv. If the method used for submitting messages to our system allows for messages longer than the standard SMS message length, then (where possible) these may be sent as concatenated multiple segment SMS messages that can contain either 153 GSM characters or 67 Unicode characters in each segment. One SMS credit is charged for each SMS segment required to send the submitted extended message.
- v. For messages sent to destination countries outside of the user's local country, additional SMS credits are required to deliver these SMS (or each SMS segment required to deliver an extended message). For most countries these are charged at two SMS credits. For postpaid accounts: one SMS credit is rebated/included in your postpaid plan, the second SMS credit is charged at the agreed upon SMS credit cost. For prepaid accounts both SMS credits are debited to your remaining SMS credit balance. Refer to the Plan Details section of your Account Details Addendum for the SMS credits charged for your international messages.
- vi. Replies or other incoming SMS messages received for a customer are also charged a specified number of SMS credits per SMS (or for each SMS segment of an extended message). See the Plan Details section of your Accounts Details Addendum for the number of SMS credits charged for these replies or other received messages.
- vii. For Post-paid monthly plans that include a specified number of SMS credits these credits expire at the end of the billing month and do not roll-over. For prepaid plans any purchased SMS credits expire one year after the purchase date.

6. Foreign GST or VAT

If you are located in Australia (or any other foreign country that similarly requires us to charge you a local consumption tax) you must pay us on demand any goods and services tax, value added tax or any other like tax ('GST') which is payable as a consequence of any supply made or deemed to be made or other matter or thing done under or in connection with this Agreement by us (together with any fine, penalty or interest payable because of your default). The amount paid by you to us on account of GST must be sufficient to ensure that the economic benefit to us of this Agreement remains the same whether GST applies or not. We will give you a tax invoice.

7. Exclusion of Warranties

We shall use reasonable efforts to rectify (or provide another solution for) any reproducible defects in the Service notified by you to us in writing. Except as otherwise expressly stated in this section, we make no express or implied warranties to you and expressly exclude all warranties, conditions and terms implied by statute, general law, international convention or custom, including without limitation any and all implied

warranties with respect to merchantability, fitness for a particular purpose, title and non-infringement, except for any implied condition or warranty, the exclusion of which would contravene any statute or cause this section to be void.

8. Limitation of Liability

- a. to the maximum extent permitted by applicable law, Red Oxygen will not be liable to you or any of your users, for any indirect, incidental, special, consequential, punitive or exemplary damages, or for loss of profits, sales, business opportunities, revenues, goodwill, reputation, data use, or data, even if Red Oxygen or our affiliates, licensors, and service providers have been advised of the possibility of such damages, and whether based on a breach of contract or warranty, or negligence, misrepresentation or other tort, or on any other legal or equitable theory, arising out of or concerning this agreement or the service, including any systems, networks or environments used to provide the service.
- b. to the maximum extent permitted by applicable law, in no event will the aggregate cumulative liability of Red Oxygen for any and all damages suffered by you or any of your users, arising out of or concerning this agreement or the service, including any systems, networks or environments used to provide the service, whether based on a breach of contract or warranty, or negligence, misrepresentation or other tort, or on any other legal or equitable theory, exceed the total amount of fees you paid Red Oxygen for the applicable service giving rise to the liability limited to the monthly access fees paid during the three (3) month period immediately preceding the date that you first learned of the event that gave rise to the claim.

9. Basis of Bargain.

The warranty disclaimers in Section 4(d) and 7 and limitation of liability set forth in Section 8 are fundamental elements of the basis of the agreement between you and Red Oxygen. Red Oxygen would not be able to provide the Service on an economic basis without such limitations. The warranty disclaimer and limitation of liability inure to the benefit of Red Oxygen's representatives and suppliers.

10. Intellectual Property

You acknowledge that the Software is a commercially valuable and proprietary product of Red Oxygen, the design and development of which reflects the effort of skilled development experts and the investment of considerable time and expense, and is subject to copyright and other Intellectual Property Rights. We are the owner, or authorized licensee, of all rights, title and interests in and to the Software and, except as otherwise specifically granted under this Agreement, you obtain no right, title or interest in or to the Software. Except as expressly permitted by law you will not decompile or reverse engineer the Software. All source code of the Software is our valuable trade secret. No implied licenses are granted by Red Oxygen. You grant Red Oxygen and our affiliates a worldwide, perpetual, irrevocable, transferable, royalty-free and fully-paid license to use and incorporate into, and distribute as a part of, the Service or Software or any other products, services or content, any suggestion, enhancement request, recommendation, correction or other feedback from you or your users relating to the operation, functionality or features of the Service or Software.

- f. This Agreement will terminate automatically if either party becomes the subject of an Insolvency Event.

13. Consequences of Termination or Expiration

- a. Upon the termination of this Agreement for any reason, all rights granted to you under this Agreement cease and:
 - i. you must immediately discontinue all use of the Software and the Service; and
 - ii. for postpaid accounts: immediately pay to us any outstanding Charges or fees accrued to date of termination or cancelation presented on a final invoice issued at the end of the current billing period. At Red Oxygen's expense, Red Oxygen may verify your and your Affiliates' compliance with this Agreement by directing an independent auditor (under nondisclosure obligations) to conduct an audit or ask you to complete a self-audit process. You must promptly provide any information and documents that Red Oxygen or the auditor reasonably requests related to the verification and access to systems running the Service. If verification or self-audit reveals any unlicensed use, you must order sufficient licenses to cover the period of unlicensed use. The audits may be conducted more frequently, if required by the party's auditors and/or regulators, of books and records related to this Agreement.
